

**Grant County Health Department
H1N1 Flu Vaccine Information
(Updated 11/18/09)**

**H1N1 Flu Mist and Injectable Vaccine is
available at this time for any one in the
current target group listed below.**

**Only people in the current target group that are not eligible
for flu mist will receive H1N1 injectable vaccine at this time.**

Current Target Group for H1N1:

- Pregnant women
- Persons who live with or provide care for children aged less than 6 months (e.g. parents, siblings and daycare providers)
- Healthcare and emergency medical services personnel who have direct contact with patients or infectious material
- Children aged 6 months through 4 years, and
- Children and adolescents aged 5-18 years who have chronic medical conditions that place them at higher risk of influenza-related complications. These conditions include chronic pulmonary (including asthma), cardiovascular (except hypertension), renal, hepatic, cognitive, neurologic/neuromuscular, hematological or metabolic disorders (including diabetes mellitus), immunosuppression (including immunosuppression caused by medications or by human immunodeficiency virus); or receiving long-term aspirin therapy.

**See county website (www.co.grant.wi.gov) to see Vaccine Information
Sheet (VIS) or call for further information.**

Locations this week:

Grant County Health Department, 111 South Jefferson Street (2nd Floor), Lancaster, WI.

November 18th 2:00pm to 5:30pm Lancaster Youth & Ag Building

November 19th 3:00pm to 5:30pm Boscobel Tuffley Center

Starting on 11/19/09, H1N1 will be also available to 19 through 64 year olds with chronic medical conditions that place them at higher risk of influenza related complications.

All influenza vaccine is available while supplies last. Call (608) 723-6416 with questions or if clarification is needed.
